

VitaBeauty

Are you tired of wasting your time and money on skin creams that really don't work? You need to heal your skin from the inside out. That is where VitaBeauty can help. This infusion includes several nutrients essential to healthy, more vibrant skin. We start with vitamin C and glutathione. These are powerful antioxidants that help with skin repair. We then add proline and arginine, which are amino acids vital in the production of collagen. Collagen is the macromolecule responsible for skin elasticity. Finally, we squeeze in a few additional important nutrients, namely B-complex and zinc.

0.9% Normal Saline 500-1000 ml of fluids.

B7 (Biotin) is essential for the metabolism of fatty acids, amino acids, and glucose.

Selenium is an essential trace mineral that assists with cognitive function and fertility.

L-Lysine an essential amino acid that plays a crucial role in proteins and enzyme synthesis. It reduces muscle breakdown and promotes muscle growth. Lysine is also involved in calcium absorption and thus important in muscle contraction and relaxation.

Manganese provides excellent support for the endocrine system and healthy bones. It also reduces inflammation and provides antioxidant support, optimal recovery for damaged tissues and hair and collagen support.

Niacinamide improves the appearance of enlarged pores, uneven skin tone, fine lines, dullness, and a weakened skin surface.

Glutathione is the Mother of All Antioxidants. It is active in the repair of daily cell damage.

Glycine plays an important role in building lean muscle mass, the production of growth hormone and reducing inflammation. It is also essential in the production and maintenance of collagen, therefore reducing the signs of aging. Important in reducing the effects of stress and anxiety, and in boosting mental performance and memory.

Proline plays a crucial role in overall skin health and appearance, wound healing and skin repair by supporting collagen synthesis and reducing inflammation and boosting metabolism. It is also important in digestive health by helping maintain intestinal lining integrity.

Vitamin C (Ascorbic Acid) is essential for healthy, youthful skin. Ascorbic acid is required for collagen formation and maintenance. It is also important in supporting a healthy immune system, lowering triglycerides and cholesterol.
